Long distance ISOM 2017, 1:10 000 e=5m, surveyed 2016-2019  
The maps will be printed on waterproof paper.
- Terrains:** [Terrains of all competitions will be relevant to terrains of WMOC 2023.](#)  
**Sprint**  
The competition terrain is made up of housing estate combined with parks. Paths located in the area are mostly paved.  
**Middle distance**  
The area is a combination of continental terrain with more detailed areas. There is a good paths and forest roads network. The tree cover is predominantly deciduous with very good runnability and visibility.  
**Long distance**  
Karst terrain with depressions.  
On the slopes of depressions there are some rocky fields and cliffs. Vegetation consists mostly of deciduous forest with occasional coniferous trees. Runnability and visibility is mostly good. Running is sometime reduced by stony ground. In the terrain there are some forest roads and medium density of paths.
