Dear Orienteering Friends,

The Slovak Orienteering Federation (SZOŠ) is honoured to be awarded the organisation of the 2023 World Masters Orienteering Championships in Slovakia. Despite the three-year delay we would like to invite you again to Košice city and its surroundings in South-Eastern Slovakia. The second largest city of Slovakia, situated on the river Hornád, will offer excellent venues and entertainment for your enjoyable stay. Historic centre with many cultural monuments, boutiques, cafés, and summer restaurants will bring you opportunities to spend some pleasant moments between sports activities.

The local organisers from ATU Košice have picked beautiful and challenging terrains for you. For the Long Distance Final, we go to the unique Silická plateau with negative karst terrain, widely known for having been used for many important orienteering events organised on the border of Hungary and Slovakia such as World Cup, World University Championships, Junior World Orienteering Championships and World Orienteering Championships. The Middle-Distance Final will take place in technically very demanding terrain situated between Košice and Prešov. This terrain has never been used for orienteering before. And the Sprint Final in the heart of the beautiful city of Košice should satisfy all orienteering enthusiasts too. Various types of terrain requiring different specific skills of runners will offer an opportunity for fair and memorable competitions.

The SZOŠ and the organisers from ATU Košice would like to assure you that they will do their best to bring you a great WMOC 2023.

Come, visit us, and enjoy yourself!

Andrej Patráš
President of SZOŠ

Dear Orienteering Friends,

It is a great pleasure for us to have the opportunity to organise WMOC for the first time in Slovakia with the centre in the capital of eastern Slovakia – Košice. We are already a few weeks into 2022 but back in 2020 we were sadly not able to welcome all of you from around the world. Our plans were thwarted by the outbreak of the COVID-19 pandemic and nobody was able to predict its progress and impact on people, society, and economy.

Back then our dedicated team was fully prepared to successfully host the event. All the maps were ready with only the last revisions ahead of us. First drafts of interesting courses were designed for all of the disciplines and categories and the logistic planning of the competitions, except for small details, was finalised... The decision to postpone the event was not made easily but it was a logical consequence of the situation.

We, as organisers, were not discouraged by this situation and we are now fully committed to putting together "our WMOC 2020" which will be held on the new dates of August 11th – 18th, 2023.

We hope that your plans to take part in WMOC in Slovakia have not changed and that we will meet you next year in Košice along with those interested in the first time. You will have the opportunity to compete in interesting terrains and, at the same time, you will be able to enjoy our beautiful nature, historic sights and the kind-heartedness of the people of our country.

We look forward to meeting you.

Štefan Máj
Chairman
of Organising Committee

📍 Slovakia

Slovakia is a mostly mountainous country located in central Europe with a population of 5.5 million people. Poland, Ukraine, Hungary, Austria, and the Czech Republic border it.

Slovakia is a member state of the European Union, NATO, the UN, and many other international organisations. The national currency is the EURO (€). Slovakia's capital and its largest city is Bratislava.

📍 Košice

Košice is the second largest city in Slovakia with around 250 000 inhabitants.

Being the economic and cultural centre of eastern Slovakia, the city is home to the Košice Self-governing Region, the Slovak Constitutional Court, four universities, several museums, galleries, and theatres.

Most of the historical monuments are concentrated in the centre of city, the size of which makes it the biggest Town Monument Reserve of Slovakia. The gothic Saint Elizabeth Cathedral dominates the town centre with the State Theatre located nearby. The main street, fringed by aristocratic houses with restaurants, boutiques and cafes serves as a city promenade.

In 2013 the city was awarded the prestigious title of European Capital of Culture and in 2016 the title of European City of Sport.

Košice is known as a city with a rich sporting tradition. The oldest marathon race in Europe has been organised there regularly since 1924. In the past there were many world events hosted in Košice such as the World Ice-hockey Championships 2019, the World University Orienteering Championships 2006 and the Junior World Orienteering Championship 2012.

Košice has a humid continental climate with average maximum temperature in August of 25°C and rainfall of 70mm.

📍 Event Centre

The WMOC 2023 Event Centre will be situated in Košice Culture Centre which is 10-15 minute's walk from the city centre and is easily accessible by car or public transport.

Competitors will have the opportunity to use the WMOC Office, Coffee bar, Press centre, Information desk and visit some sport shops during the registration days.

Event centre address: Kulturpark, Kukučínova 2, 040 01 Košice

Sprint Qualification

Košice, Technical University campus

The Sprint Qualification race will take place in the Technical University campus and in the adjacent housing estate. The competition area is flat and consists of two different parts. One is the university campus with administrative buildings and adjacent parks. The second part is formed from older urban apartment blocks and small parks located between them. There are a few new residential buildings in the area too.

Sprint Final

Košice, City centre

The Sprint final will be held directly in the centre of the town. The competition area is very flat with almost no climb and is a mixture of two different types of terrain. One is the historic city centre, consisting of a combination of streets, passages, courtyards, and small squares with a few vegetation features. The other is formed by the City Park. There are several vegetation features such as flowerbeds, hedges and some artificial features like statues and monuments. The arena will also be in the park.

Forest Qualifier

Budimír

The Forest Qualifier will take place only a short drive from Košice. The area is located between 250 and 410 m above sea level and is a combination of typical continental terrain with more detailed areas formed by landslides. There is a good path and forest road network. Tree cover is predominantly deciduous with very good runnability and visibility. There is only one small area of dense vegetation in the competition area. Navigating through the variety of terrain will require choosing optimal running speed.

Middle Final

Sigord

The Middle Final competition will be held in the surroundings of the recreation centre Sigord which has never been used for orienteering before. The area is located between 420 and 570 m above sea level and is rich in terrain details originating from landslides and erosion where marshes are not uncommon. The forest is mostly deciduous and offers good runnability and visibility. Only a few green areas are in the terrain. There is a good network of forest roads and paths. Detailed reading of map in demanding terrain with combination of compass use will be a great experience for all competitors.

📍 Long Final

📍 Silica

Silická plateau, the most popular and attractive part of the Slovenský kras national park, will be the venue for the last final race. The area is located between 500 and 630 m above sea level and is well known for its karst terrain and is characterised by big depressions. A great variety of rock detail such as rock fields and cliffs of height of 1 to 3 metres can be found on the slopes of depressions. In the terrain there are several ravines originating from karst terrain erosion. Runners will experience three different kinds of vegetation in the area - deciduous forest with occasional coniferous trees, where runnability and visibility is very good, semi-open or open areas with varying runnability and visibility and parts of the terrain with dense vegetation. The competitors will find it challenging to execute the right route choice in this terrain.

📌 Training possibilities

Competitions held in similar terrains before the WMOC 2023 will be mentioned at www.wmoc2023.sk with links to the event. The best opportunity to compete in terrains relevant to WMOC Long Final is the Slovak Karst Cup 2022 <http://karst.obkosice.sk/2022-sk>

Maps of relevant areas for self-training can be provided by the organisers – contact info@wmoc2023.sk

📌 Public Race

A 5-day competition "Slovak Karst Cup" <http://karst.obkosice.sk/2023-sk> will be organised in the WMOC areas taking place alongside or right after WMOC 2023 races. Entry for individual days is also possible.

📌 Accommodation

City Košice and WMOC 2023 offers all kinds of accommodation from luxury hotels to campsite accommodation. You can find categories for hotels and guest houses, and for student hostel and camp accommodation on the www.wmoc2023.sk website. For more information or booking please feel free to contact: accommodation@wmoc2023.sk (student hostel, camping).

📌 Food

Košice has plenty of restaurants to choose from where many kinds of food are on offer. Most of these restaurants have summer gardens where you can sit, eat, and drink. There are also places with fast food such as hotdog, kebab, pizza (from € 3) and of course with traditional Slovak food. Beer brewing in Slovakia has a long history and a great tradition. Besides world-famous beers you can taste the locally produced beers from 1.50€. You will be able to purchase a meal in catering tents in the arenas during competitions.

📌 Transport

There will be no organised transport to the Sprint Qualification and Sprint Final. Both Sprint arenas will be accessible by public transport which will have extra capacity at the times concerned.

The Organiser will provide transport to forest Models and forest competitions to a limited extent.

Transport tickets can be purchased for € 60 via Eventor at the time of registration and by 10th of May 2023 at the latest. After that the cost will be € 90, subject to availability. The payment must be paid to the above-mentioned WMOC account.

The price of daily transport will be published at the website www.wmoc2023.sk from 1st of July 2022.

📌 Parking

Car parking is only available for forest competitions and forest models. The price of the parking permit for cars is € 20. Parking for vans, caravans and buses will be available for Sprint and forest competitions, including models. The price of a parking permit for van/caravan is € 35, for bus € 80.

Further transport and parking information will be published at www.wmoc2023.sk

Parking permits can be ordered via Eventor at the time of registration or at transport@wmoc2023.sk together with payment to the WMOC bank account.

📌 Visa

You do not need a visa if you come from EU or the Schengen area. Other international travellers may be required to hold a Slovak visa prior to travel to Slovakia, depending on your country of residence. For more information, please visit <http://www.slovak-republic.org/visa-embassies>
